PRODUCT OVERVIEW

Carbon steel line pipe is used for transportation of oil, natural gas, water, steam, and slurry in pipelines, flowlines, and gathering systems. IPC supplies line pipe from internationally recognized mills with complete API 5L, ASTM A106, and ASTM A53 compliance, in seamless and welded configurations.

Available with a full range of coating options including FBE (Fusion Bond Epoxy), 3LPE, 3LPP, painted, and galvanized. Supplied with beveled or plain ends, plastic end caps, nylon rings and wooden saddles for coating protection.
